

February 2010 Meeting:

Office 2007 vs. 2010: Which way to Go?

At this timely session, we'll be focusing on the two newest versions of Microsoft Office, those being Office 2007 and the soon-to-be-released Office 2010. Andy Tremba, our local Microsoft representative, will be on hand to give us a sneak peak at Office 2010 and discuss some of the differences between the two versions. In addition, Linda Sackett, founder of the Legal MacPac, will be on hand to demonstrate the look and feel of Office 2007 in a legal environment with the addition of a macro/template package and document assembly solution.

Be there to see what the new versions of Office can do for your firm! As always, we'll be interested in hearing from the group. Questions, concerns, feedback, and experience from our participants is what this group is all about!

Date and Time: Tuesday, February 23, 2010
11:30 am – 1:00 pm

Lunch will be provided

About The Sackett Group, Inc.: The Sackett Group, Inc. formerly known as Legal MacPac, was founded by Linda Sackett in 1990. The company's flagship product, Legal MacPac, is the #1 template and macro product among large law firms and has the highest market share percentage in its category according to the International Legal Technology Association (ILTA). More than 25% of Am Law 100 law firms have Legal MacPac installed. The company's newest, next generation product, MacPac 10, combines macro-like functionality, content management, and document assembly into a singular document production system for creating and managing complex legal documents. Please visit www.legalmacpac.com

We look forward to seeing you!
